COOPERATIVE PROJECT AGREEMENT
HEALTH FACILITY IMPROVEMENT PROJECT
NATIVE VILLAGE OF GOODNEWS BAY, ALASKA**

PROJECT NO. AN 03-G72

DATE OF AGREEMENT:
March 2007

A. INTRODUCTION

Throughout this Amendment these entities are referred to as follows:

Native Village of Goodnews Bay	=	Village
Alaska Native Tribal Health Consortium	=	ANTHC
Cooperative Project Agreement	=	CPA
Denali Commission	=	Commission

On Oct. 27, 2003, ANTHC and the Goodnews Bay Water & Sewer Utility Board executed a CPA authorized by the Denali Commission to repair and renovate an existing combination washeteria/water treatment plant in the City of Goodnews Bay, Alaska. The scope of work included design, construction planning, site preparation, materials and equipment, renovation, and labor.

The repair and renovation included equipment, such as washers and dryers, and the material and labor necessary to complete work on bathroom and shower facilities. The project did not involve any ground disturbance.

The project was funded with \$105,000, via Denali Commission Financial Assistance Award No. 0093-DC-2003-I8, dated June 2003.

B. RECOMMENDED CHANGES

In order to complete the scope of this project, the following changes are necessary:

B1. Revision of Project Funding

This Amendment adds \$125,000 to cover the costs of deficiencies, discovered during renovation, in the building and washeteria system, and \$25,000 to cover the consequent increase in ANTHC support services charges.

The additional funds are provided via Denali Commission Financial Assistance Award No. 272-07, dated January 2007.

Project funding therefore totals \$255,000.

A revised cost estimate table is provided below.

Job Type	Scope of Work	Qty	Units	Unit Cost	Total Cost	Funding Sources	
						Denali FY03	Denali FY07
C-WA	Renovate washeteria/ water treatment plant	1	LS	225,000	225,000	100,000	125,000
Goodnews Bay Award					\$225,000	\$100,000	\$125,000
M-PP	Professional Operations Charges				5,000	5,000	
M-CB	ANTHC Support Services Charges				25,000		25,000
Total Award					\$255,000	\$105,000	\$150,000

B2. Changes in Agreement

The original Agreement was between ANTHC and the Goodnews Bay Water & Sewer Utility Board. This Amendment changes the parties involved to ANTHC and the Native Village of Goodnews Bay.

Consequently, the Native Village of Goodnews Bay will assume ownership and responsibility for operating and maintaining equipment and facilities provided by this project, as specified in the following resolutions:

- Joint Resolution of Traditional Village Council and City of Goodnews Bay. Resolution No. JNT05 Utility Board Dissolution passed August 11, 2005
- Goodnews Bay Water and Sewer Utility Board resolution No. 05 Utility Board Dissolution passed on August 11, 2005
- Native Village of Goodnews Bay Traditional Village Council Resolution No. 05 Utility Management passed July 28, 2005

This document constitutes Amendment No. 1 to repair and renovate a combination washeteria/water treatment plant in Goodnews Bay, Alaska. All other sections of the original CPA remain in effect as agreed upon and executed.

MEMORANDUM

DATE: March 2007

FROM: Director, Central Engineering Services

SUBJECT: Native Village of Goodnews Bay – Environmental Review
Project No. AN 03-G72, Amendment No. 1

TO: FOR THE RECORD

Federal funding for this project requires an environmental review in accordance with the National Environmental Policy Act (NEPA) and the National Historic Preservation Act (NHPA). The Alaska Native Tribal Health Consortium (ANTHC) has considered all potential environmental concerns (specific and cumulative effects) associated with the project in consultation with applicable federal, state, and local authorities. An environmental review was completed in October 2003 with respect to the proposed sanitation facilities planning project at Goodnews Bay, Alaska under Project No. AN 03-G72. This Amendment will not change the scope outlined in the original document. No additional environmental review is necessary at this time.

The ANTHC will revisit this environmental review to determine if potential environmental concerns have been addressed if the scope of work changes.
